The European Center for Peace and Development University for Peace established by the United Nations (ECPD) in cooperation with the ECPD International Center for Integrative Medicine, within the framework of the ECPD International Program of Transfer of Knowledge System in the field of Biomedical and Medical Sciences, organizes

II ECPD INTERNATIONAL SPECIALIST SEMINAR

QUANTUM MEDICINE IN DIAGNOSTICS, THERAPY AND REHABILITATION

(Belgrade, 29 - 30 November 2024)

We are pleased to invite you to participate in the **ECPD International Specialist Seminar "Quantum Medicine in Diagnostics, Therapy and Rehabilitation"**, which is intended for specialist training and further development of **medical doctors and dentists**, as well as **physio and occupational therapists with higher medical education**, in the field of quantum medicine.

The basis of this educational program represent modern holistic methods and devices of quantum-information medicine, of a wide spectrum of frequency range. The focus of these new methods, which are oriented towards the treatment of the human being as a whole, and not the disease as a symptom of a disorder, are the body's acupuncture system and consciousness, which have been shown to have a quantum-holographic information structure, with very significant psychosomatic implications.

Co-directors of the Program are **Prof. Dr. Đuro Koruga**, NanoWorldLab, professor of the ECPD UN University for Peace and **Prof. Dr. Slaviša Stanišić**, Faculty of Medicine, University of Priština, Vice President of the Serbian Association for Integrative Medicine. President of the Program Council is **Prof. Dr. Anđelka Lazarević**, longstanding Director of the Medical College of Applied Sciences in Belgrade.

Program

Program of the seminar includes the following main topics:

- **Health and disease from the point of view of quantum medicine - coherence VS incoherence (frequency, resonance, interference, hologram and non-locality)**

Phone +381 11 3246-041, 3246-042, 3246-043, 3246-044, 3246-045 ; Fax: 3240-673, 3234-082

E-mail: ecpd@EUnet.rs office@ecpd.org.rs

- **Integrative approach in modern diagnostics and therapy**
- **Fundamentals of application of quantum physics in medicine**
- **Fundamentals of quantum medicine based on nanotechnology**
- **Assessment of the energy-functional state of the human organism**
- **Examples of the application of quantum medicine in the diagnosis of melanoma, cancer of the cervix, colon and oral cavity based on opto-magnetic imaging spectroscopy**
- **Prophylaxis and treatment with hyperpolarized light (light-puncture for the regeneration of the organism at the quantum level: changing the conformational states of biomolecules)**
- **Nanopolariton quantum light therapy**
- **Demonstration of devices for diagnosis and therapy in the field of quantum medicine**
- **Interpretation of test results and determination of therapy in quantum medicine**
